

DSN HEALTH AND SAFETY POLICY

Health and Safety Policy

incus Training (DSN) recognises the importance of the health and safety of centre staff and visitors.

incus Training (DSN) will abide by legal responsibilities in relation to health and safety issues.

It is important that both centre staff and visitors take reasonable care for the health and safety of themselves and others provided by guidelines of DSN's policies and procedures policy.

Risks in DSN are assessed by the following procedure:

1. Look for hazards.
2. Decide who might be harmed and why.
3. Evaluate the risks arising from the hazards and decide whether existing precautions are adequate or whether more should be done.
4. Consider removing the hazard or controlling it so as to remove risk.
5. Record findings and inform relevant parties (centre staff and visitors)
6. Review assessment at fixed intervals and in any case when major changes are made.
